Description du projet (disciplines concernées, thématiques, objectifs, outils et méthodes envisagés...) Topics and brief description of the planned activities (purposes, tools, methods)	<p>BGI akademiet is looking for an exchange partner for a school exchange. Our school is a large private boarding school located 15 km south of the Danish city of Horsens. Our daily life is heavily influenced by sports, where students engage in various sporting activities. By following the link, you can take a virtual tour of BGI akademiet: https://bgiakademiet.dk/virtuel-rundvisning/</p> <p>We are searching for a long-term exchange partner and are interested in an exchange primarily focused on language and cultural exchange. We intend to privately finance the trip, and the exchange should be realistic by bus, adhering to sustainability principles.</p> <p>Primarily, we are not seeking a school interested in academic exchanges throughout the year, as our curriculum is already quite demanding. However, we are eager to invest significant energy into fostering rich language and cultural exchanges for our students in both Denmark and country we visit.</p> <p>As we are a large school, we are seeking the possibility of exchanging with two classes simultaneously comprising 40-50 students. The participating students in the exchange are between 15-17 years old and are generally very proficient in speaking English.</p> <p>Primarily, we aim to conduct exchanges during December (weeks 48+49+50) and again in March/April (weeks 15+16). Beginning next school year 24/25</p>
